# Overview

---

## About NAEC

NAEC is a national association for elevator contractors, suppliers, and professionals serving primarily the interests of its members in regards to products and services; promoting safe and reliable elevator, escalator and short-range transportation and promoting excellence in the management of member companies.

## Purpose of Certified Elevator Technician Certification

The purpose of the National Association of Elevator Contractors (NAEC) Certified Elevator Technician (CET™) certification is to provide the elevator industry with a means of obtaining and verifying knowledge and experience requirements related to compliance with industry codes, elevator and escalator specific technical theory, components, and competencies.

## Statement of Non-Discrimination

NAEC endorses the principles of equal opportunity. Eligibility criteria for examination and certification as a Certified Elevator Technician are applied equally to all individuals regardless of age, race, religion, gender, national origin, veteran status, or disability. NAEC understands the importance of impartiality in carrying out its certification activities, managing conflict of interest and ensuring the objectivity of its certification activities.

# Application Process

---

## Overview

The steps of the application process for NAEC Certified Elevator Technician certification are as follows:

- 1) Submit your request letter and application.
- 2) Within 2 weeks of receipt of your application and letter, NAEC will send your application package; which includes a checklist of all items needed for review of application.
- 3) Return all documents on checklist with payment for review by the Certification Board.
- 5) Within 2-3 weeks, you will receive the Certification Board's decision. Upon approval, you will receive exam instructions and procedures.
- 6) Upon completion and passing of the exam and returning the proctoring items to NAEC, the Education Coordinator will send out your certification package.

Each of these steps is explained in detail in the remainder of this Handbook.

## Application and Fees

A completed application will require the following:

- Completed and Signed Application (including Code of Ethics and Certification Statement)
- Completed Verification of Experience/Education
- Fees

All the application materials are available later in this Handbook and available by emailing Kathy Bell – Education Coordinator at [kathy@naec.org](mailto:kathy@naec.org).

## Postmark Deadlines

All deadlines set by NAEC are postmark deadlines. If there is a discrepancy between a metered postmark and an official United States Postal Service postmark, the latter will be considered official.

## Eligibility Requirements

Applicants become eligible to take the NAEC Certified Elevator Technician certification examination upon successfully completing the application process, payment of fee and approval of the NAEC Certification Board.

## Scheduling an Examination Appointment

Within 10 business days of receipt of your proctors' names, NAEC will send you, the applicant and the proctor, the necessary information for online Certification Examination.

## Fees

The current application fees:

Experienced: \$645 NAEC members/\$1,060 non-members

Education: \$85 NAEC members/\$135 non-members

## *Special Circumstances and Fees*

---

### Incomplete Applications

Incomplete applications will be returned to the applicant. Any applications not completed within 90 days, will be archived.

### Cancellation

The application fee is non-refundable.

### Extreme Circumstances / No Fee Penalty

If an applicant has missed the examination due to emergency or hardship such as serious illness of either the applicant or an immediate family member; death in the immediate family; or military duty, he or she will be permitted to reschedule the examinations at no additional charge as long as the following requirement is met:

- Applicant submits written request and provides supporting documentation. The Certification Board will review for eligibility.

If such a request is not made, the applicant will forfeit the full application fee. To apply for a future date, the applicant must complete a new application, pay all applicable fees, and meet all eligibility requirements in effect at the time of reapplication.

## *The Examination*

---

### Examination Format

The NAEC Certified Elevator Technician certification program consists of a 160-question computer-based multiple-choice examination.

### Language

The examinations are offered in English only.

### Americans with Disabilities Act

Special arrangements shall be provided to applicant with a disability (as defined by Title III of the Americans with Disabilities Act) who submits with their certification application, a written explanation of their needs along

with appropriate medical documentation. Forms for applications for accommodations are included later in this Handbook.

## Preparing for the Examination

---

### Computer-based Examination Content Outline

The Certified Elevator Technician computer-based examination conforms to a content outline based on a national practice analysis of Certified Elevator Technicians. Below is the content outline for the Certified Elevator Technician certification computer-based examination.

Knowledge	% of Exam
Electric/Traction	15
Hydraulic	13
Special Application	4
Escalators	4
Lifts	4
Controls	12
Job Site	4
Hoistway	10
Car Enclosure	5
Maintenance	15
Safety	14

### Authoritative References List

The Authoritative References List provides a concise yet detailed guide to informative elevator books. It serves as a valuable tool for all Certified Elevator Technicians, especially those preparing for the certification.

This list is intended for use as a study aid only. The NAEC does not intend the list to imply endorsement of these specific references, nor are the test questions necessarily taken from these sources.

- *The 2010 Elevator Industry Field Employees' Safety Handbook.*
- *Elevator Maintenance Manual (McCain)*
- *NEMI Installation Manual (Elevator World)*
- *ASME A17.1 Safety Code for Elevators and Escalators (2004 or more recent)*
- *ASME A18.1 Safety Standard for Platform Lifts and Stairway Chairlifts*
- *NFPA*

## On the Day of the Examination

---

### Test Admission Procedures

Applicants must have two proctors for their examination. Both proctors must be physically present and within sight of the applicant during the examination. Both proctors must review the proctoring statement and return a signed and notarized copy of the proctor statement for the applicant to receive certification.

### Proctoring Rules

The following are the rules enforced at all test administrations:

- The area where the examinee will be taking the examination **must be located in a low traffic, quiet, and well-lit area** -- preferably located in an isolated room. In order to meet this requirement, it may be necessary to have the applicant take the examination after normal working hours. In such instances, however, the applicant should have an opportunity to rest before going directly from the job site to the examination.

- Proctors will need to be physically present and have a direct line of sight of the examinee during the entire exam.
- The examinee **must present a legal picture identification** card to the proctor before taking each examination. A legal picture identification card may include a valid driver's license, a military reserve identification card, an employee badge, or a state issued picture identification card. If the individual does not have a legal picture identification card, then the examination may not be given to the individual. The picture identification must be checked by the proctor to make sure that it is valid and has not been tampered with and that the picture and name match the individual presenting the identification card.
- The examinee **will not be permitted to bring any books, cell phones or personal belongings** to the test area. All examinations are **closed book examinations**. The proctors shall provide plain white paper and pencil to the examinee and must collect all distributed paper and pencils before the examinee leaves the examination area. Once the examinee starts the exam, they shall not leave the testing center until he has completed the exam.
- The examinee **may not use any other programs on the respective computer**. Prior to the examinee logging in on the computer, the proctor must make certain that all other computer programs are closed.
- There is to be **no talking** during the examination process. The proctors may only answer questions related to the administrative functions of the proctoring and may not provide the examinee with coaching or help with the technical content of the examination.
- There is to be **no discussing or copying** of the testing material during or after the test by either the examinee or proctor.
- Anyone falsifying any documents and not following these examination procedures could be severely penalized, including suspension or revocation of their certification. Also, such activities could also be in violation of city, state, and federal laws.

## Dismissal

Any applicant who is observed engaging in any misconduct will be subject to dismissal from the examination, may be barred from future examinations for a period ranging from one year to permanent dismissal, and may be required to forfeit his/her current application fee and /or period of eligibility.

## Examination Irregularities

Any problems, suspected instances of cheating, alleged inappropriate examination administration, environmental testing conditions severe enough to cause disruption of the process, or other irregularities related to test administration should be addressed to the onsite proctor or to staff. All such matters will be reported, investigated, and subject to further action based upon policies and procedures adopted by NAEC.

## Handling of Tests

NAEC will take all available precautions to ensure the appropriate and secure handling of completed tests. In the rare and extreme case in which the tests become lost or unreadable, applicants will be required to undergo retesting, without being charged a re-examination fee.

## *After the Examination*

---

### Notification of Results

Applicants are notified of the examination results after completion of the examination.

### Results - Passing

Applicants who successfully complete the examination and whose credentials and application entitle them to certification will be notified by letter and granted an NAEC Certified Elevator Technician certification, a sample of which is displayed below.

The certification remains the property of NAEC, which may withdraw, cancel, revoke or otherwise annul the certification for cause.

## Results-Failing

Applicants who did not successfully complete the examination will be notified at the end of the examination and given a diagnostic report on the reason for their failing, a sample of which is displayed below.

Each of the domains is weighted differently, as indicated in the exam Blueprint, printed earlier in this Handbook. Therefore, you cannot average scores on all the domains to determine your specific score. Domain analysis is provided solely for the purposes of preparing for the next exam.

## Retesting: Applicant Fails

In the event that a applicant fails his or her first attempt to pass the certification test, NAEC requires a waiting period of at least 30 days between the first and second attempts. Additionally, before any applicant's third attempt the applicant must wait at least 30 days and pay \$100 retest fee. Should the applicant fail the third attempt, they may reapply after 180 days from the date of his or her last attempt.

## Appeals Policy

Applicants may appeal the results of eligibility determination or the examinations within 30 days of the date of the results. The appeals process and an application for submitting an appeal can be found later in the handbook.

## *Certificants/Participants*

---

Following is an outline of information needed by individuals who become certified. More detailed information will be provided with the pass letter.

### Appropriate Use of the Certification

Upon awarding of a CET Certification, the certificant may use the respective NAEC CET logo and/or status on his or her uniform, clothes, business cards, letterhead, and other business items. In all instances, the use of the CET logo and/or status is an individual-based logo and/or status and may only be used by the individual duly authorized by the NAEC Certification Board. Under no circumstance may the CET Logo and/or status be used in a manner to imply that a company or organization is certified under the NAEC Certification Program. Also, use of the NAEC CET logo and/or status is prohibited in such a manner as to bring the NAEC or the NAEC Certification Board and program into disrepute or in a manner that is considered misleading.

Use of the NAEC CET logo and/or status in accordance with these provisions by an individual is authorized as long as that individual is certified as a CET by the NAEC Certification Board.

### Request for Duplicate Certificate

Any certificant may request additional copies of his or her certification document. Requests must be made in writing to NAEC and may be made at any time. The fee of \$15 must be included with the request.

### Ongoing Requirements

To maintain current NAEC Certified Elevator Technician Certification, the certificant must annually:

- Complete 10 hours of continuing education, of which 1 hour is safety.
- Pay a renewal fee of \$98 NAEC members /\$185 non-members.

### Recertification

The NAEC Certified Elevator Technician certification term is one year and expires annually on December 31. The certificant may be required to complete a recertification exam.

## Complaint & Appeals

### Complaint & Appeals Process

It is the policy of the NAEC Certification Board that the CET and CAT Certification programs are of quality and that all applicants, certified persons and their employers, and other parties within the certification process and criteria, as well as the performance of certified persons, have a fair and impartial forum to appeal decisions adversely affecting their certification status and/or a fair and impartial forum for complaints associated with the CET or CAT Certification programs to be heard. Therefore, through this policy, individuals wishing to appeal a decision affecting one's CET/CET-S, or CAT/CAT-S, status or having a complaint as to the performance of certified/candidate persons may file an appeal/complaint within thirty (30) calendar days of the occurrence which the appeal/complaint is about, or of the date on which the Appellant first knew or reasonably should have known of the occurrence. Appeals/complaints are to be submitted to the Certification Board in writing including the full name, postal mailing address, and telephone number of the appellant/complainant and specifying the conditions and circumstances of the appeal/complaint. The written and signed appeal/complaint shall be sent to the Certification Board.

1298 Wellbrook Circle, NE  
Conyers, GA 30012-3873  
fax: (770) 760-9714  
kathy@naec.org

All complaints will be reviewed by the Certification Board for merit.

Upon receipt of an appeal/complaint, the Chair of the Certification Board shall promptly review the appeal/complaint to determine disposition of the appeal/complaint. If the Chair of the Certification Board determines that the appeal/complaint is of a nature that there should be imposed an interim resolution pending the outcome of the appeals procedure, then he or she may impose an interim resolution of the matter. The interim resolution may include temporary suspension of a certification or candidate status. Such a temporary suspension immediately mitigates a potential public safety issue. Any such temporary resolution shall not be construed as punitive, disciplinary, conclusive, or indicative of guilt.
