

# Sr. Elevator Technician

**Job Title: Elevator Technician - Vertical Transportation Specialist**

**Location: Warren, MI**

We are currently seeking an experienced **Sr. Elevator Technician - Vertical Transportation Specialist** with technical expertise in vertical transportation systems to join our team.

ICR Services is converting elevator controllers into test fixtures to repair the electronics. Our company performs component level repairs on both electrical and mechanical items for the vertical transportation service industry.

## **Essential Duties**

- Engage in the process of setting up elevator test stands
- Facilitate collaboration with the team to help provide needed information in vertical transportation solutions
- Provide comprehensive technical support to ensuring prompt and effective resolution of inquiries and issues
- Extensive knowledge of elevator controllers
- Focusing on precision engineering and rigorous quality assurance protocols
- Execute comprehensive troubleshooting on elevator systems, focusing on system-level diagnostics and remediation.

## **Qualifications & Requirements**

- Extensive experience in vertical transportation
- In-depth knowledge of elevator mechanics, electrical systems, and safety protocols.
- Strong troubleshooting skills and the ability to diagnose and resolve technical issues effectively.
- Excellent communication and interpersonal skills, with the ability to work as part of a team.
- NAEC Certified Elevator Technician

**This position will be project based.**

**This position will be contract based on an hourly or daily rate.**
